ProjectSummary

ProjectName: Lobbytrack

ClientName: Lobbytrack

Domain: Visito rmanagement system(VMS)

Duration: June 2023–TillDate

ProjectDescription:

Lobbytrack is the industry leading visitor management system for signing in and registering visitors with option for on-premise. It is a web-based solution designed to optimize visitor management processes in residential apartment complexes. It offers features like pre-registration, QRcode-based check-in, real-time monitoring, access control integration and visitor history tracking. Employees can pre-register their visitors online before they arrive via Lobbytrack web-based online system, Lobbytrack Lobby App, or Lobbytrack Employee App. When the visitor arrives on-site, they can quickly sign in using the Lobbytrack Lobby App. If a visitor has not been registered in advance, you may register them when they arrive. Lobbytrack visitor registration software can auto-populate visitor record if a visitor has visited the facility in the past
